Lifewide PROGRESS Report templates were developed to promote Education for Sustainable Development and lifewide learning. A discussion paper regarding Lifewide PROGRESS Reports was submitted to UNESCO for consideration as a potential tangible outcome from the current Decade of Education for Sustainable Development (DESD). This resulted in an invitation to attend the UNESCO World Conference on ESD, held in Bonn in March/April 2009. An updated version of this discussion paper may be viewed at [UNESCO discussion paper on LPR](#).

The template was first used by Mrs Shaheen Raza, Head Teacher of Lower Primary, Dubai campus of City Schools International, commencing on 11 February 2010. Further information regarding Lifewide PROGRESS Reports may be obtained from info@pecascentres.com
